PERSONAL OVERVIEW

SAP ABAP Developer with hands-on experience in RICEF objects, ABAP reports, SmartForms, Adobe Forms, ALV, and SAP HANA technologies (CDS Views, OData). Experienced in BAPI, enhancements, and live SAP project development. Strong problem-solving skills with the ability to collaborate across functional teams.

SKILLS

SAP ABAP: Reports, ALV, SmartForms, Module Pool, BAPI, Function Module.
Data Dictionary: Tables, Views, Domains, Data Elements.
RICEF Objects: Reports, Interfaces, Conversions, Enhancements, Forms.
SAP HANA: CDS Views, AMDP (Basics), OData (SEGW).
Tools: Eclipse ADT, SAP GUI, GitHub.
Programming: ABAP, Basic Python, JavaScript.

EDUCATION

B.Tech in Information Technology

Sankalchand Patel College of Engineering
Visnagar, Gujarat
CGPA - 8.19

EXPERIENCE

Daffodils Info Solutions Pvt. Ltd.
OCT 2025 - PRESENT

SAP ABAP Developer

- Working on live SAP projects as an ABAP Developer. Developed and enhanced SmartForms and ALV Reports.
- Implemented validations and custom ABAP programs based on business requirements.
- Provided development support, enhancements, and bug fixes in systems.

VC ERP Consulting Pvt. Ltd.
FEB 2025 - AUG 2025

SAP ABAP Trainee

- Trained in SAP ABAP from basics, covering 3-Tier Architecture, RICEF, and Data Dictionary.
- Learned OOP ABAP, BDC, BAPI, and enhancement techniques (implicit/explicit, customer exits, BAdIs).
- Understood SAP HANA concepts including CDS Views, AMDP, and OData (SEGW) in a training environment.

ABAP PROJECTS

ALV Report with Email Integration

- Developed a custom ALV report for sales orders by retrieving data from VBAK and VBAP tables with selection screen filters, dynamic sorting, and subtotals.
- Automated background scheduling of the report and integrated the CL_BCS class to email the output as a PDF attachment to business users.

Purchase Order Forms (SmartForm & Adobe Form)

- Created a custom SmartForm for Purchase Orders with data extraction from EKKO and EKPO tables, applying Company branding, conditional sections, and print preview functionality.
- Migrated the same design into an Adobe Form to leverage advanced formatting, dynamic fields, and SAP HANA compatibility for PDF generation.

BAPI for Sales Order Creation

- Developed a program to create sales orders automatically using BAPI_SALESORDER_CREATEFROMDAT2 by populating VBAK (header) and VBAP (item) data structures.
- Implemented input validations, error logging, and commit handling with BAPI_TRANSACTION_COMMIT to ensure successful posting and data consistency.

OData Service Development

- Developed a custom OData service (CRUD operations, entity sets, associations) using SEGW and SAP Gateway.
- Enabled real-time data retrieval and updates, improving integration with external applications.
